

Catering

All on-property events with professional catering and bar service* (food delivered and served by a company/restaurant) are requested to use a Waterside tenant for catering. If you would like to use a non-Waterside tenant for catering, your food and beverage provider must be approved by management and may not advertise in any way or offer food or beverage available to other guests at Waterside, only for your private party.

*If you are bringing in your own food and guests serve themselves, you are not required to purchase food from a Waterside tenant though we recommend you consider them as your first choice.
